24	Sandmann,Christoph	24	3	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.

The winner of each competition will receive as many points as athletes in competition 22 (Dressage) = **24** competitors

The runner-up -1 point (**23**), the third place athlete -2 (**22**) etc

These points will be **multiplied** by the following factors:

Dressage x3, Marathon x4, Top Score x1.5 Cones x2

Winner will be the athlete with the highest number of total points from competition 22-25.

In case of equality of points the better result in the Marathon is decisive.

Will there still be equality of points, the better result in the Dressage and then the result in the Cones Driving Competition.
